Summary

A techie with 4+ years of experience in **Java**, **Spring Boot** and **Microservices** and proficient in **REST APIs**, **AWS**, **Docker**, **Kubernetes**, **Jenkins** and **SQL**, seeking **Software Development Engineer** roles.

Experience

Tata Consultancy Services Ltd *Jul 2024 – Present*
Systems Engineer — Gurugram, Haryana, India

- Led migration of servers of an enterprise banking application to newer versions compatible with **Windows 11 VIDs**.
- Configured and optimized **DAP** and **dWeb nodes** to enhance decentralization, reliability, and network performance.
- Implemented **Dependency Injection (DI)** in **Spring Boot**, reducing boilerplate code.
- Optimized **Spring Data JPA** queries, improving execution time by 30%.
- Enhanced service robustness and resilience through timeouts and alerts using **Splunk**, reducing downtime by 20% and improving response times by 15%.
- Designed and implemented robust **APIs** ensuring scalability and maintainability.
- Enhanced application stability by 25% through **Java** and **Apache Tomcat** upgrades.

Tata Consultancy Services Ltd *Jul 2022 – Jun 2024*
Assistant System Engineer — Gurugram, Haryana, India

- Enhanced monitoring efficiency by 50% by enabling **GHS set-up of EAP feeds and reconciliation jobs**.
- Applied design patterns to improve code maintainability for a service serving 20,000+ users.
- Refactored legacy **Java** code, improving performance by 40%.
- Automated **newsletter feature** in **Spring Boot**, enhancing user communication.

Xoriant Solutions Pvt. Ltd. (Intern) *Feb 2022 – Jun 2022*
Associate Software Engineer — Remote

- Improved coding efficiency by 15% using **Java** abstraction and polymorphism.
- Boosted inter-application communication by 25% through **REST API** integration.

Technical Skills

Languages/Concepts: Java, Python, Machine Learning, Data Structures and Algorithms, SystemDesign, OOP
Frameworks/Methodologies: Spring Boot, React.js, Microservices, Agile, SDLC
DevOps / Tools: Jenkins, Docker, Kubernetes, Kafka, GitHub, Maven, JIRA
Databases: MySQL, MongoDB
Cloud: AWS

Education

Bachelor of Technology (B.Tech) – 8.02 CGPA *Aug 2018 – Jun 2022*
GLA University, Mathura, Uttar Pradesh

Projects

Deutsche Bank — Java, JIRA, MySQL, DAP, Jenkins, Docker *Jan 2024 – Present*

- Built enterprise **microservices** in BFSI domain using **Java** and **Agile** practices.
- Enhanced scalability by 35% and streamlined **fax/email workflows**, improving HRM efficiency by 30%.

ABN AMRO — Java *Aug 2022 – Dec 2023*

- Integrated **OAuth 2.0** for secure client authentication, minimizing unauthorized access.
- Created 30+ **unit tests**, increasing code coverage by 20% and reducing test time by 15%.

Certifications

- **Advanced Java**
- **Google Cloud Machine Learning** – Certificate Link
